

TrailTrophy Bischofsmais 2021

07.09.2021

PARTICIPANT INFORMATION and PREFERENTIAL briefing

Please read the participant information and the supplement to current hygiene guidelines carefully!

In the following we have summarized the most important points for this year's TrailTrophy at Bischofsmais. Please read these two pages thoroughly.

Please bring along to the registration:

a) signed disclaimer

ONLY with FILLED disclaimer the registration will be processed!

b) 20 Euro deposit for transponder and lift pass SA/SU (please match)

1. Event-Area / Race-Office:

MTB Zone Bikepark Geisskopf, Unterbreitenau 1, 94253 Bischofsmais

2. Accreditation:

a) Thursday from 05.30 pm to 07 pm

b) Friday from 08.00 to 11.30 am, 02 to 03.15 pm

c) Saturday from 07.45 to 08 am (ONLY for riders who don't participate at the prologue!)

It is very important for the whole process that you pick up your starting documents already on Thursday or Friday!

3. Briefing: We have an obligatory briefing on Friday, 03:45 pm at the event area (before the prologue)! Out of the Duo-Teams one rider has to be there.

4. Team name (ONLY for DUO classes): For the DUO ranking we need a team name. If this has not yet been entered during registration, please indicate it when picking up the transponder.

5. Transponder: 20 Euro deposit to be kept ready. Attach the transponder with the wristband to your right wrist. When you return the transponder AND the lift pass the deposit will be returned.

6. Starting number: Attach it visibly to the handlebars.

7. Helmet obligation: Full-face helmets are compulsory on all stages. On the Transfers helmet duty exists, there also half bowl may be carried or the chin bar may be taken off.

8. Protectors etc.: On the timed stages there is the OBLIGATION to wear: Knee pads and back protector. Wearing of elbow pads is recommended.

9. Signposting of the track: Enduro also means "eyes open"! This means: Please ride the entire route carefully. In principle the route is signposted, but not at every point marked on both sides by a tape. It is important to keep your bearings even on the timed stages!

10. Starting grid: This is done according to the riding time of the prologue. The slower riders start first. The starting list will be posted on site from Saturday afternoon. This starting order is binding! If you want to ride together with friends and are divided into different starting blocks, you have to meet during the transfers if necessary.

11. Lift: All participants get a lift ticket for the two race days. Riders who lose their ticket can't get a new one! Everyone who wants to use the lift for training on Friday needs to buy an extra ticket.

12. Procedure at the start gate: The "Gate Directors" regulate the entrance to the timekeeping sections. They also make sure that the distance from driver to driver is correct. Waiting drivers must stay BACK to the Gate Director, otherwise the timekeeping will be triggered (contactless)!

13. Timing I: The end of the timing is announced by yellow warning signs "Finish 50 m" (if the finish cannot be seen from this distance). The passage of the finish line is marked by two finish boards and tape on both sides; if necessary, there will be marshals at the finish line.

14. Timing II: The personal transponder stores all data of the individual sections. The transponder is already switched on by SPORTident! After the last stage the transponder must be read out. For this purpose it is necessary to pass under the finish arch and at the TRAILTROPHY-tent before and after the finish arch. Without this passage and the reading of the transponder no scoring can take place.

15. Emergency repair service: The Shop at the bikepark helps for urgent repairs (due to their capacities).

16. SCHEDULE: The current timetable can be viewed at www.trailtrophy.eu, then location Choose Bischofsmais. The current timetable is posted on site.

17. TRAINING: Only the stages posted by Komoot may be trained! All other stages may not be trained. Violation will be punished with a time penalty.

18. mandatory training: Stage 8 (Downhill) must be trained at least once on Friday with activated transponder. You will reach the stage via the transfer described in the Komoot Training Collection!

We wish you lots of fun and success at the TrailTrophy in Bischofsmais!
